

The children at Hutton CE Primary School have had a very busy and exciting start to the school year!

Year 3 Museum visit – Year 3 enjoyed a visit to the Bristol Museum, they did a workshop where they handled stone, bronze and Iron Age axes. They also had a tour of the museum where they saw some really big ammonite fossils and met Alfred the Gorilla!

Knitted Bible Exhibition - Year Three visited the Knitted Bible exhibition at Wick St Lawrence Church, the children thoroughly enjoyed the visit looking at hand knitted scenes from the Bible. We were particularly proud to hear positive comments about the children's behaviour; Year 3 you are a credit to our school.

The Royal Navy -We welcomed members of The Royal Navy into school. The team worked with our Year Five and Six pupils on some exciting STEM (Science, Technology, Engineering and Maths) activities. The children were challenged to code a Sphero ball (similar to a mini robot) to follow instructions, set up an electricity circuit to power a propeller blade and use a hydraulic system to operate a pump. The children engaged in all the activities with great enthusiasm.

With help from our families at Hutton primary School we managed to pack a whopping 50 boxes to Operation Christmas child!

Our Year 4 class enjoyed 5 days at Mendip outdoor pursuits. They took part in Archery and rock climbing

Year 6 have been working hard on a combined Science/DT project this term and we are very proud of the results of all their hard work. They were tasked with creating a Christmas decoration that included a light up bulb, moving part (using a motor) and a switch to turn it on and off. They showed off their products to the rest of the school and the photos show the two winning designs as judged by our very own Dragons.

The Choir Tour – On Thursday 15th December our wonderful choir visited Sanders garden Centre and Lidl. They sang their hearts out raising money for Dabaso – we raised £200! Well done every one
